Data Center Hardware:

15,000+ The newest ASIC miner, GPU rigs are Ready to mine.

Cooling System:

Air cooling system and Water cooling system keeping temperature: 20-24°C.

Security/Fire Protection:

24/7 on-site guards, intrusion detection systems, IP-DVR cameras.

Our Team:

Our mining team come from in blockchain industry and IT engineers.

OUR ROAD-MAP

How to Start Mining

The mining automatically starts within 1 hour after you get the Hashrate.

All payouts occur once per day. Withdrawal anytime, the payouts continue daily.

*You can see the mining process at Dashboard>Advance>Hashrate Chart (Website)

*You can see the mining process at Setting>Mining Process (APP)

How it works? <https://cryptominerorg.io/how-it-works>

WHAT IS CLOUD MINING

Cloud Mining is the process of bitcoin mining utilizing a remote datacenter with shared processing power. This type of cloud mining enables users to mine bitcoins or alternative cryptocurrencies without managing the hardware. The mining rigs are housed and maintained in a facility owned by mining company and the customer simply needs to register and purchase mining contracts.

Our app never uses a device's CPU or GPU for cryptocurrency mining operations and not run unrelated background processes. Our APP will not cause potential damage to the hardware, such as battery drain and excessive heat.

*New user get 5TH/s SHA-256 hashrate for Free Trial. The Free hashrate will expire after 5 days.

This is not a free website, but after a free trial, you may decide is it worth to buy hash rate.

I accidentally turned off the mining switch, what do I do?

You must turn on the mining switch manually 24 hours after you turn off it.

IS CRYPTO CURRENCY MINING PROFITABLE

Yes, we strongly believe that mining is profitable and Mining is the best way to get cryptocurrencies at cost price.

Mining is the best long-term investment.

WHERE ARE YOUR DATA-CENTERS LOCATED

Our Mining Data Centers are located in Myanmar & Kazakhstan.

Cheap electricity is the main factor for building our data center.

We are a Hong Kong company. Chinese cryptocurrency regulations does not affect us at all.

WHAT PAYMENT METHODS DO YOU SUPPORT

You can pay for cloud mining contract using credit cards, Paypal, UnionPay, BTC/ETH/LTC/USDC/DAI or more payment methods...

What is the Referral Program

Every CryptoMinerOrg customer has a unique referral link, which can be shared with anyone, you would like to invite to start using CryptoMinerOrg. Any new user, who registers using your referral link becomes a lifetime referral.

As a referrer, you are eligible to receive 18% referral commission bonus for every purchase made by any of your referrals, The bonus is added to your account's balance in TRX shortly after the purchase is confirmed.

You can find your unique referral link in your account's Dashboard by selecting "Referrals" and "Tools" from the left panel.

You can find additional materials under "Referrals" and "Materials" in your account.

You can find statistics of your referrals, commission, and conversion under “Referrals” and “Tools” in your account.

Referrals bonus are excluding reinvest and balance purchases.

* You are not allowed to register Multiple accounts to receive referral bonuses. The referral program is designed as a way to reward you for attracting new users and endorsing the product. Please use it responsibly.

* Please use the English referral link (untranslated referral link).

* If you didn't receive your referral bonus, your referral may have been invalid.

HOW TO MAKE A WITHDRAWAL

You can create a withdrawal per currency every Minute. In order to do so, you will need to follow these steps:

1. Go to your User Panel and select "Dashboard";
2. Find and click the "Withdraw" button;
3. Choose the amount to be transferred and click "Withdraw";
4. Go to your email inbox (the one connected to your CryptoMinerOrg account) and click on a link in the withdrawal confirmation email.

=Please click the verification link within 48 hours or this withdrawal will be protected by system.=

Each withdrawal is a subject to a transaction fee, which is paid to the blockchain for transaction processing and confirmation. Currently, the following withdrawal minimums are present:
